Calibration 4-gas mixture

Number: 4.27.1078

SPECIFICATIONS

Measurements: 370 (l) x 100 (w) mm

Weight: 1,20 kg

Made in: United State

HS Code: 27112900

DESCRIPTION

Calibration 4-gas mixture:

500 ppm CO / 50 ppm H₂S / 2.2% CH₄ / 18% O₂ in Nitrogen

Cont. 58 liter

Durability 2 years

The calibration testgas cylinders contain a small amount of gas for bump testing or calibrate your equipment.

This is necessary to functional test your equipment to check if it is working properly.

1956

SPARE PARTS / COMPLEMENTARY GOODS

4.27.1071 Regulator demand flow (stainless steel) - can be used for aut. calibration station

4.27.1072 Sample Line Connector

4.27.1077 Regulator demand flow (brass) - can be used for aut. calibration station

4.27.1086 Calibration hose - 1 meter
