Number: 3.05.0361

SPECIFICATIONS

Measurements: 77 (l) x 77 (w) x 84 (h) mm

Weight: 0,13 kg

Made in: United Kingdom

HS Code: 85318070

DESCRIPTION

The L170 is available in two versions. We offer a commercial version and a version with a unique bracket, specially designed for mounting with leisure Lifebuoys. Both versions are fully SOLAS approved and differ only in the bracket supplied.

Both brackets are designed for easy fitment.

Fit and Forget

Both Lifebuoy Lights offer a five year life. No maintenance or replacement batteries are required. This saves time and expense during inspections.

Compact size

These Lifebuoy Lights are amongst the smallest and lightest lights available on the market today.

76 Metres Drop Height

MED/SOLAS and USCG standards call for the Lifebuoy lights to be dropped from 30 metres. Both these Lifebuoy lights have passed a drop height test from 76 metres high. This makes these new lifebuoy lights suitable for use on any platform or vessel with high bridge wings.

LED Technology

Lifebuoy Lights are using the latest advances in LED technology. They feature very low current consumption and enhanced reliability. Both our Lifebuoy Lights feature a flashing light.
